

## Newsflash

Aoccdnig to a rscheearch at an Elingsh uinervtisy, it deosn't mttær in waht oredr the ltteers in a wrod are, the olny iprmoetnt tihng is taht frist and lsat ltteer is at the rghit pclae. The rset can be a toatl mses and you can siltl ræed it wouthit porbelm. Tihs is bcuseae we do not ræed ervey lteter by itslef but the wrod as a wlohe.

### 8th Step (Cont. still)

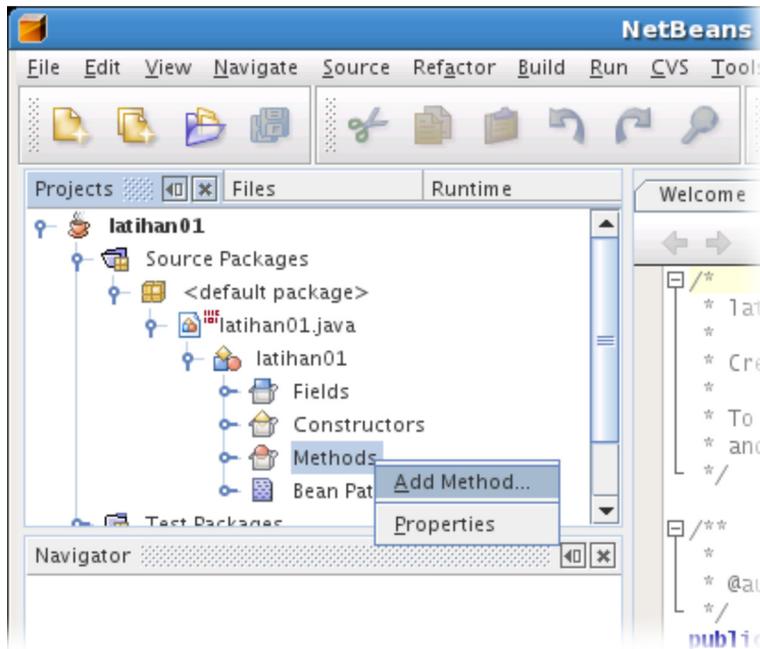

Written by Mohd Khalid Kasmin

**Monday, 27 August 2007**

In item (9), we see that Netbeans does not provide us with the main method. So to follow what we already know, we now put in the main method.

10.

11.

**Add New Method**

Name:

Return Type:

Access:

Modifiers

abstract       final

static       synchronized

transient       volatile

native

Parameters      Exceptions

Objects:

12.

**Add New Method**

Name:

Return Type:

Access:

Modifiers

abstract     final

static     synchronized

transient     volatile

native

Parameters    Exceptions

Objects:

13.

**Enter Method Parameter**

Type:

Name:

Final

14.

**Add New Method**

Name:

Return Type:

Access:

Modifiers

abstract       final

static       synchronized

transient       volatile

native

Parameters      Exceptions

Objects:

String args

15.

...open the template in the

```
/**
 *
 * @author mkk
 */
public class latihan01 {

    /** Creates a new instance of latihan01 */
    public latihan01() {
    }

    public static void main(String args) {
    }

}
```
